We hold a selection of 'needle punched' waddings, all of which are sold by the metre, and are suitable for quilting by hand or machine.

We stock:

- 100% polyester - 90" wide - *this is suitable for quilts that will spend a lot of time in your washing machine, e.g. baby play mats or children's play quilts. This wadding can be quilted up to 10" apart.*

- 80% Cotton 20% polyester - 90" wide - *drapes beautifully, is great to hand sew. There may be some shrinkage when washed, which gives your quilt the traditional 'antique' appearance. This wadding can be quilted up to 8" apart.*

- Bamboo wadding - 90" wide - 50% Bamboo/50% cotton so a 'natural' wadding. Again a beautiful wadding for hand quilting in particular. Great to machine quilt with as well. Washes beautifully. Can be quilted up to 8" apart

- Black wadding - 60% Cotton/40% polyester - 94" wide. This is great if you have a dark quilt. Can be quilted up to 8" apart.

- Insulating Wadding. 45" wide. This is a heat resistant wadding made from Mylar film and holofibre polyester, for use with table mats and oven gloves

In addition we sell firm iron on interfacing for use in bags, stitch and tear, water soluble embroidery backing, grid marked vilene (*great for small coasters*)

and of course bonda-web for applique. We also sell 'pelmet vilene' which is used in boxes.

We sell a range of embroidery stabilisers and Stylvil (Bag Foam)
